“ *Doctor Al was always a gracious host to his guests at his vacation home in Canada many years ago. He was a cherished parent, a beloved grandparent and will be sorely missed by all who loved him. Rest in Peace.*

“ I met Albert when he developed hemolytic anemia many years ago, and have considered it an absolute honor and pleasure to have known him. He was always a gentlemen. Always. He spoke highly of others. Always. He was kind. Always. He was honest. Always. He loved his family. Each time I would see him, he would get a twinkle and also a tear in his eyes when talking about the love he had for his family, how proud he was of his children and grandchildren. I so enjoyed those visits. Knowing some of the family, I not only have seen physical resemblances, but resemblances of character, of mannerisms, of values and attributes that come from his example. His legacy will live on for many generations.
