“ Dear Barb;

Friends do indeed last forever. From our time in Seattle Operator Services to our move to Wenatchee (to that little white house a few blocks from work), we did have some great times! You could make me laugh in three words or less and a look, without cracking a smile!

The late short-shift allowed us to get up late, go to work, then stay up late to do again the next day. Along with those fun runs to Lake Chelan (in my Bug cuz it was great on gas!) just because it was warm enough to swim in the middle of the night!

You truly were a wonderful friend and there will never be anyone more kind, generous or fun to be around!

Miss you, kiddo!

“ *Queen B, my dear friend from the days of our youth when we met while working for Ma Bell, I shall miss you forever. You were so good, honest, kind, gracious, ambitious, a dreamer who worked to make her dreams become real. You had courage and a gypsy heart. You were a voracious reader, generous by nature, and you sailed under your own flag, an independent woman, a woman worthy of confidence. You were a rock for your friends and family. I loved your droll humor. You saw Life as an adventure, even his final journey which you faced with curiosity and intelligence. Bon voyage, Sweet Friend.*
