“ How I remember chuck is target shooting years ago at the gun range and plinking in the hills around Redmond Washington. One hunting trip with my dad tom clark sr. we had so much fun. Dad and chuck never left the campfire all day. I was up high on the mountain and their voices and the sound of chopping wood all day still is vivid in my memory and this was over 50 years ago. I met chuck via his wife Linda who also worked at puget sound power and light with me. We hit it off right away. Chuck came to my home in WENATCHEE numerous times. In 1968 he bought a dream car. It was a 1968 mustang loaded fastback dark green. How proud he was of it. Chuck moved away to Paso area and then moved back to WENATCHEE about 9 years ago. We rekindled our old friendship. Chuck always knew when I returned from Arizona each year. He would drive to my home down to my shop to see if my motor home was there. Then call on the phone and say where the heck are you. I was usually in my office catching on filing etc. then we would have several hours of great conversation catching up. We went to lunch often and when I would drive up to his house he was always sitting on his little chair waiting for me to go to the ROCK TAVERN for their big hamburgers and onion rings. I also loved to play tug of war with his beautiful dog SABA. THEN he would say you two are destroying her toys playing so hard. Chuck also loved nice new trucks and finally bought a new bright red camero a couple of years ago. It has never been outside when it might get dirty from a drop of rain.

I will miss you chuck. I expect you to be shopping for another bright red Toyota crew cab loaded truck. Take care ole friend.
