“ I slept in the same dorm as David at the Hospitality House. I saw David last on the trolley. He told me he was picking up more paint for a mural project he was working on. Apparently, he had knocked over and spilt some paint containers while speaking with an attractive woman. I found out he had passed a few days later. He was one of the few guys at the hospitality house who encouraged others and sought genuine connects with. He will be missed. I'd also like to extend my condolences to his family.

 Nick Harlen

“ My name is Nick Harlen. I met Dave when we both stayed at the Hospitality House. I liked him immediately! He was a very nice man, upbeat and positive, and one of the funniest people I have ever known! I remember there were several other guys named Dave there, and in order to keep them all straight, we used nicknames. He chose to be called "Knot Dave with a K". We became good friends during that time, and even went to the same church. Later, after we both had moved out of that shelter, we saw each other around town all the time, and it was always great to see him. I would like to express my condolences to his sweet mother and the rest of his family. I will miss Knot Dave with a K very much.
