“ *Dad I remember how much you loved the holidays and the special family time we shared. Your home movies are a good reminder of the joy you help bring to Jill's and my childhood. An especially fond memory was the time you, Grandpa Tim and I went Christmas tree hunting on Badger mountain only to get part of the way back home to realize the tree had fallen off the jeep! We still used that tree that somehow made it through Christmas without all its needles falling off!*
