PH

“ Dear family,
Flo was a dear lady who meant so much to me as my mother, Bertha Jackson, was in her last six months of life. Flo was her care giver. I worked so Flo would come to the house by 7:30 am. She was never late, she was always cheerful, and she would do anything to help my mother be comfortable. She even made my mother a very cute rag doll! I have such fond memories of the notes she took about what happened during the day, things mother would tell her, and things they would discuss. Flo would read the bible to her and discuss the study for the Wednesday night bible study. Flo often said mother taught her so much during these studies! I am grateful for the care Flo gave mother and the wonderful memories of a very dear sweet lady who I was fortunate enough to have as a care giver to my mother. I will forever be grateful for her kindness and love!

Most Sincerely,

Patti (Jackson) Hindman
