November 2, 1922 - February 24, 2018

Frank F. Allen, MD, a resident of East Wenatchee, passed away on Saturday, February 24, 2018.

Tribute Wall

EM

“ In 1965 when I was in my fourth year of medical school in Seattle, I returned for 2 weeks with Drs. Ludwick and Zook. They arranged for me to scrub in with Dr. Frank Allen on a nephrectomy at the "old" St. Anthony's. Later I recall that Dr. Allen donated his home across the canal to the south from the "new" St. Anthony's/Central Washington Hospital. He had a unique water feature in his front yard that was appropriate for a urologist!
He was a very good surgeon and had compassion and grace. E. Fred Deal M.D.

“ Doctor Allen came to Wenatchee when I was a student nurse at Deaconess. He was a very good surgeon and a very kind and courteous man. Christine Garner, Rocky Mount N.C.
