DS

“ My memories of Jack go back to the old high school - junior college auto mechanic and machine shop classes that we took together. Didn't know at the time that they would continue later to include several years of working together at Alcoa in the rectifier station. During those years we had many enjoyable times fishing together on local lowland lakes, also streams and high lakes. Memories of good friends like Jack can never be replaced. His wit and humor were one of a kind and I value his many years of friendship.
