“ *I will never forget the first time I met Jan. I walked into Transitions to ask her about an item I had for sale. We had some friendly conversation and before you knew it I was coming back to help her for a few days. After a few days she hired me. I loved working for Jan. Tom and Jan both made me feel like family. She always had such complete confidence in me. She always said "oh you can do it" and she was right. I absolutely loved everything about my job at Concepts. I feel very thankful for the short period of time we spent together. She was a beautiful spirit and a blessing in my life.*

“ *What a blessing it was to have you in our life, albeit for to short a time.*

*Working on projects with you, was a pleasure every time. Taking your plans and ideas, to create a kitchen or bathroom was so great. Your creativity and knowledge of the industry was second to none.*

*You were always there with patience and a smile, to take the time, to explain your vision as it related to the project. Even when I didn't get it on the second explanation, you were quick to grab a pencil and pad, to draw it out for me. Not only were you excellent at your craft, you were also a teacher.*

*You taught me so much, from the design side of the industry. The knowledge that you shared with me and others, will make me better moving forward. I will always look at projects, with the insight you shared with me and for that, I'm forever grateful.*
