“ Joann embraced the idea of family, including me and my branch of the family with great warmth and welcome. Though clear across the country from me and my family with visits few and far between, each visit remains a clear and fun memory. Way back when, we met Joann and her parents when she and Robert were engaged or newly married. Over the years we had visits with them at their home in Edmond WA and in our home in CT. Joann was a big part in the family communication, pulling together information of our family history and putting it all together in booklets for family members. What a wonderful gift. Her outreach will remain with me always. Love to all the family. Mary Ann
