“ To the Cornwell family- Just wanted to say how much Katie and I and our children appreciated the "Gunny". From day one of meeting him through the Marine Corps League, he really took an interest in me and my family. I have no way to know for sure what kind of a father or husband he was, however with the attention that he paid to me and my family and the pride he had when sharing things about you all; It seems quite logical that his family was EVERYTHING to him. Never did a visit go by where he didn't want complete updates about my kids and their success' and struggles. He always reminded me that while my work was important, to ALWAYS take care of my family. No matter what they were going through he always shared encouraging words of wisdom which have come in extremely handy through the years. Honor, courage and commitment weren't just words to the Gunny, they were principals that I saw him live in the years I knew him. Thank you for sharing your husband/father with the untold numbers of people who the Gunny impacted through his life. We were all blest to know him!
