“ Coach Jones was great example of a man of integrity and hard work. In those difficult years of Junior High, I was lucky to have examples of men and woman who really took an interest in how young people develop. As I look at the pictures of him through the years, I see that smile and sparkle in his eyes, and remember him telling me to just work a little harder. Thanks Coach, I will.

“ Got to know LeRoy after he retired from teaching and shared a special enjoyment of spending time on the water and fishing Lake Rufus Woods with his friend Dan Hunsaker. The three of us would launch at Bridgeport and make a trip up-lake to a spot we christened "Leroy's Rock". He insisted on having his rod set up over the motor in the back and asked that we make a couple of passes past his namesake rock to see if any fish were around. Most often he would hook up and catch what turned out to be the biggest fish of the day. I'll never forget that smile as he held up those fish and made a comment about doing all the catching, while we were just along for the boat ride.

LeRoy, ...I'm tempted to take along a paint brush next time I fish "Rufus" and paint your name on that rock. I know you'd enjoy that, because it was your special place. In the meantime,... tight lines my friend ! John Charap, a "fishin' buddy

“ Dear Uncle Leroy, I'm so sad you had to go. Jesus has you now and you can be with Steve. I love you very much and will never forget how you would leave tomatoes and other goodies on our doorstep when we lived on Fuller. And you gave me my first rosemary plant which grew so huge...you would laugh when you saw it. I will see you again someday. Much love, From Me, Your Niece, Marcy ❤️
