I went to say to the Entire Gonzales Family How Very SORRY I am for There Loss. We Truly Have Lost a Legend that's for sure.

When I first met Lou he said that I reminded & looked like one of his kids & to call him Dad so from that day forward I did. I actually went to school with his grandson, & years later met his son Danny & Cecil which then led me to into the whole Gonzales Clan. After the years passed & his grandson & I seen one another again it was unbelievable. Funny how life has our paths planned out for us. You couldn't ask for for a more generous family they opened there Hearts & accept you with open arms.

Lou was always buying & selling & trading something He loved his Trucks and so did I. I couldn't wait to see the latest & greatest New Truck all Tricked Out. I would run up to him and say can I have it. And he would just laugh and say well I probably wont have it long I seen another one already that I have my eye on.

I know I will NOT forget all the Great Memories all the gatherings. (Good Times) lot's of laughs, great music & wow there are just to many places to count that these all took place. I will MISS all this & my B-Day cards & X-Mas cards & most of all just YOU. You were truly a Amazing Man Lou Thank You For taking me into your family.

You are and will be Missed by So Many , With Much Love & Great Respect May You R.I.P.
