“Margaret was like a second mother to me and I will love and remember her forever. I worked for 10 years with her at the Eye and Ear Clinic and called her "Crazy Fingers" because we laughed so much when we were working on the computer. I moved back to Quincy 23 years ago, but I tried to visit her when I would get to Wenatchee. It was like old times and we would just pick up where we left off. My prayers are for my dear friend and with the three of you kids which she loved very much.

“ I worked with Margaret for many years at the Eye & Ear Clinic. She was there when I started in 1975 and I worked with her until she retired. When she retired I made her a clinic remembrance book. Each time she got it out and looked at it she would call and thank me for giving her those memories. Your mother was a class act and always so put together. She was very proud of you three kids and talked about you all the time. I know her passing will leave a huge void in your lives. She would not want you to be sad though, but to celebrate her long life. My thoughts and prayers are will each of you and your families.

“ Margaret was a dear friend to us. She was a beautiful woman with a ready smile. She was a loving mother and friend who shall be remembered fondly, and missed. Her banana bread was well known and readily shared. Our deepest sympathies.

"Stormy" was such a tried and true friend to our Mom and it always made me feel close to Mom when I would get to visit with Stormy. She was just as others have described, classy, carried herself with grace and very funny. The Vassar St. group was a pretty loyal bunch. I'm sure she and Mom are really glad to see each other.
