“ Bob transferred the Regional Park Planner position to me in 1994 and provided a great orientation to me to the staff, parks, and operational procedures. While my family was still back in Texas, Bob and his wife became my Wenatchee family for special events like Thanksgiving and Sunday NFL games. Their friendship was very meaningful in my early Wenatchee days.

There is comfort in knowing that Bob is free of pain and sickness at this time.

“ I became a new State Parks planner in 1971, when Bob and his engineer partner Donn Creger were already well established in eastern Washington. Of course, I'd learned everything in school . . . at least until Bob gave me some invaluable lessons in real life. It was a pleasure to work with and learn from him at Lake Chelan, Riverside, Mount Spokane, and other great parks. He was fortunate to be able to work for parks when we were actively growing, and he and Donn left a great legacy that we are enjoying today.

I just completed a successful 40-year career at Parks, and Bob was a big reason that I got off to a good start. I'll always be thankful for that.
