“ Our friendship started in Seattle at Queen Anne High School in Coach Henkel's gym class when he assigned us to be wrestling partners. In one class we were wrestling, when 3 other classmates who were horsing around accidentally all together fell on me and broke my neck. Thank God my spinal cord was not severed and for Roy's heroic care in the moment.

We have been friends since. We have shared a lifetime of mysterious connections that linked us together on our kindred journey.

I have been honored to have his friendship, brotherhood, and love. He was stellar man that will be truly missed. I Salute his many successes as well as his Patriotism.
