“ Tammy and me were friends from grade school till we graduated, many great memories picking her up on the way to school from her grandparents house, to all the times riding in the back of my parents truck to the roller rink, or jumping on the trampoline at my parents house. stopping by to show her my corvette first right after i got it, always cracking me up in history class in high school. or crusing the avenue in her blue Celica..Thank you for some of the best time of my life when we were younger... and for a wonderful friendship. until we meet again my friend..
